

Sonelgaz Executive Seminar

2nd Edition - Algiers, April 18 – 19th 2018

Description

RES4MED, in partnership with Sonelgaz, under the framework of the Memorandum of Understanding signed by the two parties on May 26th 2015, organizes an Executive Seminar on renewable energy solutions.

The seminar is intended for **engineers and middle managers**, working at Sonelgaz. Participants shall have different managerial roles, ranging from regulatory experts to project engineers.

The seminar aims at providing participants with a set of technical and financial tools to assess the most appropriate solutions in different energy contexts for an efficient and effective integration of solar and wind energy in the electricity system.

Structure

The seminar foresees lectures on the main renewable energy technical and financial aspects given by qualified experts and highly skilled technicians. Lecturers will be selected among RES4MED members and Sonelgaz experts, according to a consolidated executive training framework.

Agenda

The following agenda builds upon Sonelgaz proposal and RES4MED inputs and has been approved by both sides.

Wednesday April 18th 2018

Fostering the Renewables: Key success factors
