The renewAfrica Initiative

28\textsuperscript{th} January 2020, Brussels

\textit{Scaling up EU Commitment to Deliver REs Investments in Africa: the EU-Africa Partnership for a Common Green Deal}

\textit{2\textsuperscript{nd} meeting of renewAfrica signatories}

Seven months after its launch in June 2019, renewAfrica has made great strides. It became a well-defined initiative to scale up European private investments in Africa’s renewable energy potential, and it has also taken shape in a rapidly evolving policy context. The new Commission’s determination to pursue global leadership through the European Green Deal, while also promoting a Stronger Europe in the World, confirms that renewAfrica’s mission is gaining momentum. In this second general meeting of renewAfrica signatories, we aim to reaffirm our signatories’ commitment to making renewAfrica a programme that delivers, and ask how we can partner up with the European Commission in pursuit of our common ambitions.

\textbf{AGENDA}

\begin{tabular}{|l|p{12cm}|}
\hline
\textbf{12:00-13:30} & Welcome refreshments and light lunch  \\
& Meeting of European Commission officials and selected renewAfrica executives will take place in parallel  \\
\hline
\textbf{13:30-14:15} & Advancing European Commitment to Africa’s Clean Energy Access at Scale  \\
